**No need to leave your workspace just to
send an email!**

**No need to copy or retype information or
look up email addresses!**

BABEMail™

You can send instantaneous reports with the simple click of a button!

BABE Mail™ allows you to email reports directly from BABE™. With BABEMail™, BABE automatically looks up the email address based on the profile of the referring physician. BABE™ keeps a log of all emails that are sent. BABE™ sends the report using "html", a web-based user friendly format.

Benefits of BABEMail™

- Provides a quick response to referrals
- Improves efficiency by saving time and providing a paperless environment.
- Easy to set up and use.
- Affordable
