BABEStat™

BABEStat™ allows you to run productivity statistics directly from BABE™. This is a great way to show you meet/exceed credentialing requirements.

You can graph productivity for your entire practice, or limit it to a single site. Personal productivity can be displayed individually, or shown relative to all other sonographers/physicians.

With BABEStat™ you can:
Graph individual sonographer productivity
Compare sonographer productivity
Individual Reading Physician or Referring Physician productivity
Compare Reading Physician or Referring Physican productivity
View your site's monthly practice volume
Compare the productivity of multiple sites
